Life with a Passion \$14.95

This softbound book is a personal growth experience with unforgettable tales and a thorough exploration of why it is important to clarify values. It is a self-enhancement program that enriches relationships and helps us establish a set of goals aimed at courage and a positive attitude.

Life Tracker® \$14.95

This planner records activities for time and money. Contacts, monthly calendars are in the front, while weekly pages and financial logs follow. This is a great way to track appointments or a personal journal. There is ample writing space with a four-page per week layout and a semi-annual approach. It has a durable plastic coil and sturdy laminate cover.

Organizational Journal® \$12.95

This booklet retains valuable information that comes to you in a random way. You get an A-Z index and 52 lined pages to cross-reference important content reflected in your index. Use the existing topics (such as books to read, medical records, emergency contacts, favorite movies, quotes, etc) or add topics to the index as you use the journal to compliment a three-month supply of Weekly Intentions®.

Finance Tracker® \$12.95

This system tracks annual budgets and a record of accounts. It provides a vertical cash-check-credit/debit book registry or a spreadsheet template with monthly bookkeeping needs. Track budgets for vendors, child support, credit cards, gas expenses, etc. Use this in place of Life Tracker's weekly finance log if you have a lot more transactions.

Life Jacket® \$19.95

This book wallet is a beautiful silkscreen image of an eagle looking at the globe and rock climber. It holds Life Tracker, the Organizational Journal and Finance Tracker items together with pockets for cash, credit cards and photos. It has a handy pen holster as well.

Life Empowerment Makeover® \$ 3.95

This is a reprint of the Life with a Passion Appendix.

Life Empowerment Workshop \$35.00

Friends and family are gathered to explore life-coaching processes revealed in the Life Empowerment Makeover. This interactive workshop brings enticing games to tantalize the power of passion. There are three segments: Self-Actualization, Financial Empowerment and Family Dynamics. This content is usually tailored to a specific set of needs identified (i.e. resolve conflicts, improve efficiencies or develop closer ties). Each segment is 60-90 minutes, depending on the participants and activities selected.

Prices are subject to change without notice.
